

# For Medium and Large Sized Egg Producers Special Mechanical Design, Management With Tablet

## EP-205 Egg Coding Machine

is manufactured for egg producers who produce between 25.000 and 500.000 eggs daily. Machine is presented with 2 meters conveyor belt, android tablet, assembly equipments and 5 pcs HP45 egg coding cartridges.

- ✓ Capacity: Coding 100.000 eggs per hour
- ✓ HP45 thermal inkjet technology, 5 and 6 printheads
- ✓ Excellent print quality and performance
- ✓ **INNOVATION** - Easy management with Bluetooth technology and android tablet
- ✓ Stand alone, independent control unit. No need for PC
- ✓ Capable to print up to 4 lines on egg shell
- ✓ **INNOVATION** - Capable to print in all languages (English, Arabic, Chinese, Russian, Japanese and more)
- ✓ Coding brand, logo, farm number, date etc..on egg shell
- ✓ **INNOVATION** - Special mechanical design;  
Increases the efficiency of the operation, reduces the workload and improves the print quality and performance by making the printing height adjustment very fast and easy with a single move.
- ✓ **INNOVATION** - Special mechanical design;  
Increases the efficiency of the operation, reduces the workload and improves the print quality and performance by adjusting the distance between the printheads at the same time with a single move according to egg tray sizes.
